Highlights

**TRANSPATH Featured in European
Commission Brochure on Transformative
Change**

25 August 2025

The European Commission's brochure "[EU-funded research projects: Towards Transformative Change for Biodiversity](#)" singled out TRANSPATH for its work identifying leverage points across consumer, producer and organisational levels, and for developing the concept of "safe and just operating spaces" that respect both planetary limits and human rights.

The brochure highlights TRANSPATH's forthcoming outputs, a suite of Transformative Pathways, a Toolbox of Transformative Interventions, and a Transformative Navigation Toolkit, as practical resources for policymakers and practitioners, and situates the project within the EU Biodiversity Strategy for 2030.

Strengthening the Science-Policy Interface at the IUCN World Conservation Congress

11 October 2025 · Abu Dhabi

As previewed in our last issue, TRANSPATH featured in a joint Horizon Projects brochure and in sessions on the science-policy interface at the IUCN Congress, presented from the Pensoft Publishers stand alongside cluster partners BioAgora, RESPIN and CO-OP4CBD. The project used the platform to reinforce collaboration across the transformative-change cluster of Horizon Europe projects.

Congratulations to BioValue on Concluding a Successful Project

17 October 2025

TRANSPATH congratulated fellow transformative-change [project BioValue](#) on its official conclusion in September 2025, celebrating its contribution to embedding biodiversity value into spatial planning and decision-making across Europe, including a technical brochure and a [project-concluding video](#).

TRANSPATH Spotted at CO-OP4CBD Training Event

18 November 2025

TRANSPATH joined a CO-OP4CBD training event alongside BioAgora and RESPIN, continuing the cluster's shared focus on translating scientific knowledge into actionable insight for biodiversity and climate decision-making.

"Transformative Change to Address Biodiversity Loss Is Urgent and Possible"

14 October 2025 · New paper in PLOS

A new PLOS paper echoed a closing message from TRANSPATH's own policy workshop report: urgency and possibility go hand in hand. The IPBES Transformative Change Assessment continues to underscore the need for fundamental, system-wide shifts in how we think, organise and act, precisely the territory TRANSPATH is working in through its Science–Policy–Practitioner Labs, its work reforming economic and financial systems, and its identification of leverage points across consumers, producers and institutions.

Two flagship outputs, the Transformative Navigation Toolkit and a Toolbox of Transformative Interventions, were confirmed for release on the TRANSPATH website in 2026, to guide practitioners and policymakers toward a just, nature-positive world by 2050.

Publications

D1.5 — Policy Review (Version 1)

Wageningen University & Research · TRANSPATH Deliverable D1.5 (2025)

A first synthesis of the EU policy findings emerging across TRANSPATH's work packages — trade, finance and governance levers reviewed together for the first time.

Available on transpath.eu/library

D2.2 — Science-Policy-Practitioner Labs: Co-Creating Leverage Points for Transformative Pathways

Fisher, Kok, Harmáčková et al. (Wageningen University & Research / GCRI / UCL) · TRANSPATH Deliverable D2.2 (2025)

Field research using fuzzy cognitive mapping (FCM) to co-create leverage points with stakeholders across TRANSPATH's case-study regions.

Available on transpath.eu/library

In progress — coming soon

- *D4.2 — Recommendations for Context-Specific EU Policy Interventions (University of Geneva) synthesising the trade, finance and cocoa-sector findings into concrete EU policy recommendations.*

Upcoming events

TRANSPATH Final Annual Meeting

February 2026

Prague, Czechia (hosted by CzechGlobe)

IPBES12 Stakeholder Day

3 February 2026

Windhoek, Namibia

Webinar: Nature Credits, with BioAgora Project

Early March 2026 — save the date
